

**Table 1: UC Davis 2003 LRDP EIR Mitigation Monitoring Report Summary Table  
Implementation of LRDP EIR Mitigation Measures**

<b>Mitigation Topic</b>	<b>Implemented?</b>
<b>4.1 Aesthetics</b>	
4.1-1 Scenic views	Yes
4.1-2 Visual character and quality	Yes
4.1-3 Glare control--nonreflective surfaces and directional fixtures	Yes
<b>4.2 Agricultural Resources</b>	
4.2-1 and 4.2-3 Preserve prime farmland	Yes
<b>4.3 Air Quality</b>	
4.3-1 Reduce emissions from vehicles	Yes
4.3-3 Reduce construction dust impacts	Yes, partially.
4.3-8 EPA and CARB programs	Yes
<b>4.4 Biological Resources</b>	
4.4-1 Rare and special plant species surveys and avoidance	Yes
4.4-2 Foraging habitat Swainson's hawk and birds of prey	Yes
4.4-3 Burrowing owls surveys, avoidance	Yes
4.4-4 Swainson's hawk survey, buffers	Yes
4.4-6 Valley Elderberry Longhorn Beetle surveys and avoidance	Yes
4.4-7 Northwestern pond turtle surveys and avoidance	Yes
4.4-8 Wetland protection	Not Applicable
4.4-10 Special status fish species	Not Applicable
4.4-11 Heritage/Specimen Tree survey and protection	Yes
<b>4.5 Cultural Resources</b>	
4.5-1 Historic structures procedures and protection	Yes
4.5-2 Archaeological sites procedures and protection	Yes
4.5-3 Historic or archaeological resource documentation	Yes
4.5-4 Procedures for discovery of human remains	Yes
<b>4.6 Geology, Soils and Seismicity</b>	
4.6-4 Septic system design requirements	Yes
<b>4.7 Hazards and Hazardous Materials</b>	
4.7-1 Hazard safety plans	Yes
4.7-2 Implement Mitigation 4.7-1; Hazardous waste management program	Yes
4.7-3 Implement Mitigation 4.7-1; Health Physics Program	Yes
4.7-4 Implement 4.7-1 and 4.7-3; Reduce generation of radioactive waste	Yes
4.7-5 Implement 4.7-1; Biosafety Program	Yes
4.7-7 Implement 4.7-1, 4.7-5(b); Continue to implement programs related to laboratory animal use	Yes
4.7-8 Transportation of Hazardous Chemicals--Packaging of chemicals	Yes
4.7-10 Hazardous material mitigation for labs operated by non-UC entities	Not Applicable
4.7-12 Due diligence assessments of sites prior to ground disturbance	Yes
4.7-13 Survey buildings for potential contamination before demolition or renovation	Yes
4.7-15 UC Davis Airport safety	Not Applicable
4.7-17 Emergency operations plan conflicts	Yes
<b>4.8 Hydrology and Water Quality</b>	
4.8-1 Comply with state-wide stormwater BMPs, permitting	Yes
4.8-2 Comply with stormwater BMPs, permitting to minimize pollutants	Yes
4.8-3 Drainage study	Yes

**Table 1: UC Davis 2003 LRDP EIR Mitigation Monitoring Report Summary Table  
Implementation of LRDP EIR Mitigation Measures**

<b>Mitigation Topic</b>	<b>Implemented?</b>
4.8-4 Stormwater monitoring	Yes
4.8-5 Stormwater treatment	Yes
4.8-6 Water conservation strategies	Yes
4.8-9 100-year flood requirements	Yes
4.8-10 Putah Creek watershed stormwater permitting and BMPs	Yes
<b>4.10 Noise</b>	
4.10-1 Construction noise mitigation program	Yes
4.10-2 City of Davis noise abatement program, noise control design features	Not Applicable
4.10-4 Uses within 750 feet of rail line evaluated using Federal Transit Administration Noise and Vibration guidelines	Yes
<b>4.12 Public Services</b>	
4.12-3 Contribute fair share cost of City of Davis Fire Department improvement	Not Applicable
4.12-6 Contribute fair share cost of police or fire improvement	Not Applicable
4.12-7 Contribute fair share cost of k-12 school facilities improvement	Not Applicable
<b>4.13 Recreation</b>	
4.13-2 Contribute fair share cost of local recreation facilities improvement	Not Applicable
<b>4.14 Traffic, Circulation, and Parking</b>	
4.14-1 Implement and expand TDM, traffic monitoring, intersection/roadway improvements	Yes
4.14-2 Monitor off-campus LOS operations- TDM, traffic monitoring, intersection/roadway improvements	Yes
4.14-3 Implement and expand TDM and monitoring of parking demand	Yes
4.14-4 Monitor transit ridership, identify new service and routes	Yes
4.14-5 Monitor pedestrian and bike activity, identify and make improvements	Yes
<b>4.15 Utilities</b>	
4.15-1 Evaluate water supply capacity, upgrade if required	Yes
4.15-2 Evaluate utility water capacity, upgrade if required	Yes
4.15-3 Evaluate wastewater system capacity, upgrade if required	Yes
4.15-4 Evaluate storm water system capacity, upgrade if required	Yes
4.15-6 Monitor electrical system adequacy, upgrade if required	Yes
4.15-7 Natural gas capacity, archaeological resource monitoring for trenching	Yes
4.15-8 Monitor chilled water/steam system capacity	Yes
4.15-9 Monitor telecommunication system adequacy	Yes
4.15-10 Contribute fair share cost of local utility improvements	Not Applicable
